## Funny gif memes 2020

someecards Calling anyone who has ever experienced a breakup or argument with a significant other: Sometimes all a few quarrel needs is a little humor (and an excuse, of course). These memes will remind you that life is too short to worry about the little things. It really doesn't matter, in the scheme of things, but seeing a peanut butter company and an animated pictures company (with a name based on the format, GIF) come together to gently make fun of the soft-G pronunciation of GIF is pretty darn fun. Who doesn't need some fun these days? Jif / Giphy / Amazon It's quite a story to understand before you can fully appreciate the image above. The GIF file extension stands for Graphics Interchange Format. It is a compression algorithm that has become popularly used for animated images on the internet. If you've ever called a Gif a Jif, we forgive you. What's the big thing: Pronouncing the three letters has become a bit of an internet sensation, but then most people use a hard-G sound, as in Graphics, Gurgle or Grass. However, Steve Wilhite, the guy who came up with the format, famously told the New York Times that it should be pronounced with a soft G, as in Giraffe, Giant or Geography. The Oxford English Dictionary accepts both pronunciations, Wilhite told the Times. They're wrong. It's a soft 'G,' pronounced 'jif.' The end of the story. The answer: The internet has gone wild over this in the years since, with people famous and not (Jimmy Fallon, anyone?) weighing in. Our own editor-in-chief Lance Ulanoff created a poll on Twitter to see how people pronounce the word. Both polls fall overwhelmingly in favor of hard-G. Where things stand right now: Now peanut butter maker Jif and animated photos database Giphy have put together a funny little picture pokes fun at the whole thing. If you've ever called a Gif a Jif, the (presumably fake) jar says: We forgive you. The point: Does this really matter? Probably not. But the photo took the internet by storm, re-igniting Gif or jif psuedo controversy. That in itself is actually a ton of fun. Thank you for telling us! Tell us why! In his book, he compared a meme spread to a virus. The word meme came from the Greek word mimeme, which means imitation thing.
